

QURii

CONTROLLED ENTERPRISE INTELLIGENCE

COMMERCIAL OPERATIONS

Keep the know-how. Move the work.

Make experience available when the work needs it.

Bring approved knowledge and decision history into the task, so the next person can move forward with context.

COREONYX GOVERNMENT SOLUTIONS / COMPANY CREDENTIALS

QURii
Awardable
Tradewinds

Put experience within reach of the next person.

A maintenance question crosses a knowledge base, service records and an approval process. A QURii use case brings approved guidance and prior decisions together for the next authorized reviewer.

ONE WORKFLOW. A CLEAR START.

What happens when your expert is unavailable?

01

Recover the context

Surface relevant guidance and retained history from selected sources.

02

Prepare a grounded response

Show the basis for a recommendation and make unresolved questions visible.

03

Carry the knowledge forward

Retain the reviewed rationale and handoff record for future authorized use.

MAKE THE VALUE VISIBLE

Start in one service or operations function. Select a recurring exception workflow and a limited source set. Compare a baseline sample with assisted work, including accuracy and review effort.

MEASURE THE CHANGE

Resolution time
Escalations
Reviewer corrections

Choose one process that depends on too few people.
